Thanks for the follow up Doug! We are actively following up with the city and will continue to do so. I really appreciate you and your staff keeping us in the loop. Pat

Hi Pat, I hope you're doing well. I just wanted to report that I spoke with Mr. Sutherland and reemphasized his concern about the aggregate he's found in Parker apparently from some roadwork the City has done. I told him that we work with you on such issues and that you were aware of the matter and were being briefed by your staff. I also told him it was difficult to draw too many conclusions based upon the photos but it appears better housekeeping practices could have been used. He is interested in an inspection and I told him if I were still at state I would contact the City and have them send someone out to review the matter including some of the areas where he took photographs.

In any event, I wanted to make sure you had the information I had. I hope all is well.

Doug
